PREFACE

Yamaha Music Foundation is an organization established by the authority of Japanese Ministry of Education, Culture, Sports, Science and Technology for the purpose of promoting music education and music popularization. Its unique, systematic teaching method and teacher training programs are highly evaluated not only in Japan but also in other countries.

The Yamaha Grade Examination System has been developed to enable students and teachers to ensure their own progress and thereby obtain self-confidence in their own music studies.

The result of the examination will help the applicants to acquire the richer ability of music.

The YAMAHA GRADE EXAMINATION SYSTEM consists of thirteen grade levels, Grade 13 to Grade 1. The Examination evaluates the performing ability of the music lovers in general; the performing ability and the musical knowledge and techniques required for the instructors of the fundamentals stage; and also the performing competence of the professional musicians.

The Electric Guitar Grades are held from Grade 10 to Grade 6. These are for students of Yamaha Popular Music Course and music lovers.

- Candidates may bring and use their own effectors.
- Candidates should tune their instrument to A=440Hz on their own. (For Grade 10, quality of tuning is not evaluated.) A tuning meter may be brought into exam room, and may be used during exam.
